Three months : : : 1 00

Advertising rates on application.

Candidates are to have a grand ball at Elk's Hall this evening.

Charles Main, of Hackberry, was in Kingman yesterday.

Miss Josie Carrow has been visiting friends in Goldroad this week.

Mrs. William Perkins returned from San Francisco the first of the week.

Mrs. A. E. Ware came in on the flyer this morning from Los Angeles.

Mrs. Walter Osborn, of Cerbat, is said to be quite ill at Mercy hospital, Prescott.

Mrs. J. N. Cohenour returned from Los Angeles a few days ago and has gone to Cerbat.

Paul George, brother of Ira and Melvin, arrived from Pennsylvania the first of the week, and will spend the winter here.

S. J. Rogers, Superintendent of Missions, will preach in the church tomorrow at 11 in the morning and 7:30 in the evening.

Ben H. Braffet and wife have returned from Long Beach and have concluded that Kingman was good enough for them forevermore.

Mrs. A. H. Smith, wife of our namesake, arrived in Kingman a few days ago from her home in Missouri and will hereafter reside in Kingman.

Mark Bradley and Mr. Hallett have gone into the country to look at mining property. They will be gone a week or ten days.

A train load of fat beef cattle was shipped through Kingman yesterday from the ranch of Haley brothers, at Pine Springs.

Lew Stirzel, superintendent of the St. Louis Con. Mining company, came in from Los Angeles Monday last and has gone out to the mines at Cerbat.

Superintendent S. R. Porter and assayer J. De Salmard, of the Gold Road company, have been examining property below Needles.

J. C. Hocker, who is interested in the Treasure Hill mines, came in from San Diego today and has gone out to the mines near Stockton Hill.

Dr. Cowie was called to Cerbat last night to attend Mrs. J. N. Cohenour, who is reported to be very ill with erysipelas. She was brought to Kingman today.

The San Diego News has an editor named R. Beers Loos. What a question to ask, when every candidate is doing his level best to turn loose all the beers he possibly can.

W. R. Davis, of Los Angeles, who with his associates has taken over the Cedar Valley mines, was in Kingman several days this week. He has made arrangements for starting up work on the mines.

Hon. P. F. Collins came in from Silver Creek a few days ago and is visiting with his many friends in town. He is fast recovering from his recent attack of rheumatism and will soon be himself again.

Henry Lovin is in Los Angeles, where he is reported to be fast recovering from his recent indisposition. His many friends in this county hope to see him again enjoying the best of health.

J. Frank Blandy, who had charge of the Elkhart mine and mill at Chloride, a few years ago, has been appointed a deputy in the internal revenue service in Arizona. He was in this part of the territory a few days ago attending to his new duties.

Wm. G. Blakely, republican candidate for District Attorney, announces to the voters of Mohave county that in asking for their suffrage he does it with the intention, if elected, of never coming before the people for the office again.

Last night eight trains loaded to the guards with tourists passed through Kingman on the way to Los Angeles. It is said that fully 30,000 visitors will reach Los Angeles by this evening, a pretty good week's work for the railroads.

F. C. Vincent, a Los Angeles mining man and assayer, made an examination of the Blue Ridge mines this week. The property is a good one and we would like to see it taken over by a strong company and systematically developed.

Mrs. Hutchison and daughter came in from Colorado Thursday and departed the following day to the Extension Gold mining camp, where C. J. Hutchison is operating his mines. The ladies will probably remain during the winter.

A number of mining men have been looking over the mines of this county the past two weeks with a view to investment. The mines of this county are among the best in the world and it ought not to be difficult to satisfy any one who is honestly looking for investment.

A big shipment of ore is soon to be made from Steve Tyler's mine, on the Summit east of Mineral Park. This ore is said to be far richer than any ore ever taken from the property. The mine is showing up wonderfully well under development and is sure to make one of the largest producers in that section of the Wallapai district.

E. B. Smith, of Hermosa Beach, Cal., visited the Alpha mine, in which he is interested, the first of the week. He expects to make a sale of the property within the next few weeks. The Alpha is one of the best looking copper mines of the district and it is to be hoped that a strong company can be induced to take it over.

Johnny Maher shot and killed Tom Malone, at Bull og last week. The men had been quarreling, but it was not thought that anything serious would result. After the shooting feeling ran high against Maher and for a time it looked as though he would be lynched. Roth men resided in Mohave county a few years ago and followed the business of mining.

The following letters remain uncalled for in the Kingman postoffice: Alex Silinsky, Dallas W. Smith, Estelle E. Osner, G. M. McGinnis, M. D. 3, Emil Melspeth, Chas. P. Munges, Mrs. Lillie Kravender, I. W. Hawkins, August Genet, F. M. Coulter 2, F. Colson.

Candidates of the two parties, who have visited every precinct in the county say that it will be a stretch of the imagination to give the joint statehood people five per cent of the vote next Tuesday. The socialists are opposed to jointure, although an effort has been made to get the vote. For economic reasons the socialists should be fully as much opposed to joint statehood as are the old parties.

Thomas Devine, Treasurer of Cocino county, has taken a bond on the Beale hotel and expects to take the property over on the seventeenth of this month. The price for which the property changes hands is said to be \$2,000. The new owner contemplates many improvements in the property, such as another story and the rearranging of the rooms in the lower part of the building. When the changes have been made the hotel will be one of the most modern and up-to-date hostelrys in the country.

A new law has just been enacted in New York—an amendment to the labor law—which prohibits the employment of children under the age of 16 years in factories, stores and other places later than 7 o'clock in the evening. The new law affects all factories, mercantile establishments, business offices, telegraph offices, restaurants, hotels and apartment houses, and companies which employ children for the transfer of packages or messages. It was enforced promptly on October 1st. —New York Sun.

The Shannon smelter and mills closed down Friday evening on account of the burning of the hoist house and engine room at the head of the incline at Metcalf last Wednesday morning. Two cars which were on the tramway broke loose and went down the hill, breaking the cable and doing considerable damage. The hoist house was covered by insurance. The closing down period at the smelter will be utilized in making repairs and adding new machinery for an increased output of the red metal in future. —Clifton Herald.

Sweet Pickled Corned Beef—something new and good, at KINGMAN MEAT MARKET.

## To the Voters of Mohave County.

Nex Tuesday is election day and voters in the different precincts should look well to their ballots. Remember that if you should vote a straight party ticket that the cross under the party emblem will not be counted for or against the statehood proposition. To register your vote on the measure you must also place your cross in the square preceding "yes" or "no". Be sure to place your cross in the square preceding "NO" and thus cast your vote against one of the most iniquitous measures that has ever been placed before the people of any state or territory of the Union for the peoples approval. Don't overlook the proposition at the bottom of the ballot. It is the most important one that the people of Arizona will ever have to deal with and claims your attention wholly at this time.

## The Thing to Be Remembered.

The voters of this territory will remember that by their votes Arizona will be either bound to New Mexico for all time and eternity or they can make it impossible for our off colored friends on the other side of the Continental Divide ever to get us in their clutches. Should we make a mistake by not accepting joint statehood the error can be remedied at any time, but should we make the mistake of joining with New Mexico that mistake goes throughout the ages. Better make the mistake on the right side and vote against jointure, and let the vote be unanimous.

Winslow Sherman, an old time miner of this county, but for the last ten years a resident of Vanderbilt and Crescent, is in Los Angeles, where a nephew is reported to have him in captivity in a lodging house. A saloon man of Crescent claims that Sherman is deprived of his liberty by the nephew, but there appears to be nothing to it. Win Sherman was badly injured in an explosion of giant powder in a tunnel, near Mescal, about ten years ago, since which time he has been acting queerly, especially when under the influence of liquor. A few years ago he sold a mining claim at Crescent and also some lots at Nippeno and at once proceeded to break the record for blowing in. He realized his desires and was soon back at his camp dead broke. He has a brother and other relatives residing at Gardena, California, and a brother in New Hampshire. Another brother Byron Sherman, died here a few years ago.

All trains on the the Santa Fe railroad have been late this week, owing it is said to the badly crippled condition of motive power. Since the strike of boiler makers and machinists two years ago the road has been badly handicapped for lack of skilled mechanics and it is thought sooner or later the striking unionists will have to be placated. Every day locomotives are dying on the main line and sidings from Los Angeles to Albuquerque. The failure of motive power must have cost an immense amount of money during the past two years.

J. F. Tomlinson and J. E. Brown have taken a lease and bond on the old Carter gold mine, at Cottonwood, from Mack Harris and Penny Drew. The gentlemen expect to do considerable work on the mine and a force of men will be put to work right away. Messrs Tomlinson and Brown have bonded their own mines in the same district to eastern people, who propose to do a large amount of work.

## ESTRAYED.

One roan horse, about ten years old, weight 800 pounds, branded JK connected on left thigh, 9 on right thigh.

Inquire at the City Stable, where the animal can be had by paying charges and advertising expenses.

E. M. CARROW, Kingman.

## Foraker Says No More Joint State Bills.

Senator Foraker, who showed Senator Beveridge where to head in when the statehood fight was on last spring, in answer to A. L. Morrison's query wrote the subjoined letter:

CINCINNATI, Ohio, Oct. 15, 1906.  
HON. A. L. MORRISON, Santa Fe, New Mexico.

DEAR SIR:—I write to acknowledge the receipt of your letter of Oct. 10 and to say that it is not only improbable that a joint statehood enabling act will be passed at the next session of congress for Arizona and New Mexico, but in my judgement it is absolutely impossible for any such thing to be done. I do not believe such a bill could ever again get anything like the support it received at the last session. Every one has found out that the American people are by a large majority, everywhere in all the states throughout the whole country, opposed to an enforced union of Arizona and New Mexico.

From every direction there comes to me information to this effect, coupled with assurances that the people of the United States believe that the people of New Mexico and Arizona are honest, law-abiding American citizens, who should be allowed a free vote and a fair count on the subject that concerns them so vitally as statehood, and there is no danger whatever, so far as the people of these territories are concerned, of frauds being committed in connection with the approaching vote on that subject, and that all suggestions to that effect are an uncalled for offence.

Very truly yours,  
J. B. FORAKER.

## REWARD OF 50,000\$.

A Special Proclamation by the Governor of Arizona.

## BE IT KNOWN:

Whereas it is made unlawful by the statutes of Arizona for any person to give or offer to give directly or indirectly any money or valuable thing to any voter to influence his vote at an election in this Territory, or to give or promise to any voter for the purpose of influencing his vote, any office, place or employment, and

Whereas, it is likewise made unlawful for any person to receive or contract to receive before, or during or after an election any money, gift, loan or other valuable thing, office or employment for himself or for any one else to influence his vote at such election:

Now, therefore, I, Joseph H. Kibbey, Governor of Arizona, by virtue of the power and authority in me vested do hereby offer and will pay a reward of Fifty Dollars to every person who shall testify to and otherwise furnish the evidence sufficient to convict any person of a violation of these laws at the election of November 6th, 1906.

And in addition to said reward of Fifty Dollars, I will grant to any person who shall have received or agreed to receive any bribe or thing to influence his vote, and who shall testify and whose testimony shall materially aid in the conviction of any person of offering or giving such bribe, a full pardon for his participation in the taking of such bribes.

In witness whereof, I have hereunto set my hand and caused the great seal of the Territory to be affixed. Done at Phoenix, the capital, this twenty-seventh day of October, nineteen hundred and six.

JOSEPH H. KIBBEY.

By the Governor.

W. F. NICHOLS,  
Secretary of the Territory of Arizona.

## To The Public.

I, the undersigned, have purchased of Hung Ting his restaurant and good will, at Chloride, and will enter into possession of same on the 6th day of November, 1906, at 12 o'clock noon.

Hung Ting will pay all debts and collect all bills, and I will be responsible for no indebtedness of the said Hung Ting.

FUNG CHEE.  
Kingman, October 31, 1906.

Leave your orders at the Kingman Meat Market for Ground Bone for chickens, 3 cents a pound.

LOST—Somewhere between Yucca and the molybdenite mines, near Cedar, pair gold mounted toric lenze spectacles. Finder will be suitably rewarded by sending same to the MINER office.
